# Edge-corE

**Release Note**

# Table of Contents

# 1  Feature Enhancement

## 1.1  Proxy ARP

In proxy ARP section, the Edgecore developed proxy ARP is adopted to replace the original proxy ARP supported from driver.

The proxy ARP status is listed below when migration from the previous FW with original proxy ARP to the FW with Edgecorre developed proxy ARP.

e.g. In the FW with original proxy ARP, if the proxy ARP is enabled and ARP Inspection is enabled, the proxy ARP is enabled when migration to the FW with Edgecore Developed proxy ARP.

| Proxy ARP | Disabled | Enabled with ARP Inspection disabled | Enabled with ARP Inspection enabled |
|---|---|---|---|
| Original | Disabled | Enabled | Enabled |
| Edgecore Developed | Disabled | Disabled | Enabled |

# 2 Known issue

**2.1** Proxy ARP can't be configured by WAPM of the controller.

# 3 Compatible Version for AP Management

Compatible with EWS series v3.45.0000 and above.
