## Table of Content

1. Issue Fixed .....	2
2. Known Issue .....	2

## **1. Issue Fixed**

- In Bridge Mode, web pages can proceed and refresh automatically after the configuration changes are applied successfully.

## **2. Known Issue**

- In NAT6 mode (Terragraph mode), if the LAN Settings are modified after the 60GHz link is established, it requires an additional reboot to make the VXLAN tunnel work normally.
